To Whom it may concern,

I would like to take this time to give my full support and highest recommendation to the team at Prochaska and Associates 11317 Chicago Circle Omaha, NE 68154. We have had a great working relationship with Prochaska and Associates through 4 phases of building construction spanning over six years, encompassing over 8 million dollars of improvements to our school district's buildings renovation and additions. Prochaska and Associates incorporate a full team of Architects and Engineers to ensure the project is modern and code-compliant with current industry standards. Our projects are educationally functional, well thought out, ADA and IDEA compliant, and aesthetically pleasing to the eye.

I welcome anyone interested in hearing more details about our positive experience with Prochaska and Associates as our Architectural firm to give me a call.

Shane Alexander, Superintendent of Schools.
